PROFIT FROM THE
LINE THAT LOOKS
AND SELLS QUALITY

INDUSTRIAL PLIERS

(Pages 7, 8, 9 and 10)

Designed for use in manufacturing, construction, mines, oil fields, railroads, shops, in radio and electronic work . . . wherever a rugged and serviceable tool is demanded. Each plier is hammer forged from selected fine grain tool steel, individually fitted, tempered, adjusted and tested for perfect performance. Individual Flame Hardened cutting edges assure faster, easier cutting action and years of dependable service. Highly polished heads and cushion grip handles provide a bonus of eye appeal and hand comfort at no extra cost. Carefully packaged for individual tool protection.

PROFESSIONAL SMALL PRECISION PLIERS

(Page 11)

Valued by electronics professionals, jewelers, hobby crafters, watch-makers, model builders, by anyone demanding fine small precision pliers, matched in size and handle-shaped for accurate and exacting work. Drop forged from fine grain tool steel, properly heat treated and machined to exacting specifications. Colorful cushion grip (at no extra cost) provides hand ease particularly appreciated with small pliers, plus instant color recognition of the various pliers being used on the workbench. May be ordered without cushion grip (full polished head and handle—drop "CG" prefix). Complete sets exquisitely cased or each plier individually packaged.

PROFESSIONAL NEEDLE POINT PLIERS

(Page 12)

Extra fine needle point pliers for professional and production line use where exacting work is required. Full polished head and handle. May be ordered with cushion grip handle at no extra cost. Specify prefix "CG" with tool number. Individually boxed.

K PLIERS

(Page 15)

Popular priced line of pliers. Serviceable tools in types and sizes designed to make many jobs easy to "do-it-yourself." Drop forged from a carefully selected grade of steel, fitted, tempered, adjusted and tested. Individually packaged in yellow, green and black Self-Service box for more impulse sales. "K" plier line has polished heads and jet black handles. (NOT furnished with cushion grip.)

COMBINATION SLIP JOINT PLIERS

(Page 13)

Drop forged from selected fine grain tool steel, precision milled jaws and properly heat treated. Kraeuter combination slip joint pliers are widely used for general purpose and maintenance jobs where maximum leverage is required. A variety of models and finishes are available. Carefully packaged for individual tool protection.

INDUSTRIAL SNIPS

(Page 21)

Designed for the tinner, mechanic, aircraft and all around user. Hammer forged from fine grain steel and precision ground to give faster, smoother cuts with less wrist fatigue. Handles correctly shaped for comfort in either hand, proportioned for extra leverage and perfect balance.

STEEL GOODS

(Pages 16, 17, 18 and 19)

Kraeuter chisels, punches and star drills are trip hammer forged to correct proportions for proper balance. Flame hardened (cutting end) for faster, easier cuts. Cushion grip is standard on many models at no extra cost. Self-Service Merchandiser and Set Assortments offer additional advantages over ordinary steel goods merchandising.

photo by Bradford Bachrach

This is a particularly important year for the people at Kraeuter & Co., Inc., for it was exactly 100 years ago that this company was founded. It is fascinating to trace the continual growth through this most important century. The wisdom and enterprise of management, the skill and loyalty of employees through the years have made this long, successful history possible. Throughout the country, people in all walks of life have come to respect the Kraeuter name. Five generations of fathers and sons have bought and used Kraeuter tools. We are determined that this reputation shall be preserved and that we will continue to be worthy of the loyalty and cooperation of our valued customers and users.

Marie-Louise Gairoard

Marie-Louise Gairoard

Kraeuter & Co., Inc.

Feel the difference...it's the

KRAEUTER VINYL "CG" CUSHION GRIP

an extra feature
at no extra cost!

The steady increased demand for Kraeuter tools with Vinyl Cushion Grip has been created by the many advantages that the users enjoy. There is no extra charge for Kraeuter Cushion Grips (factory applied—bonded to stay on).

EASY IDENTIFICATION

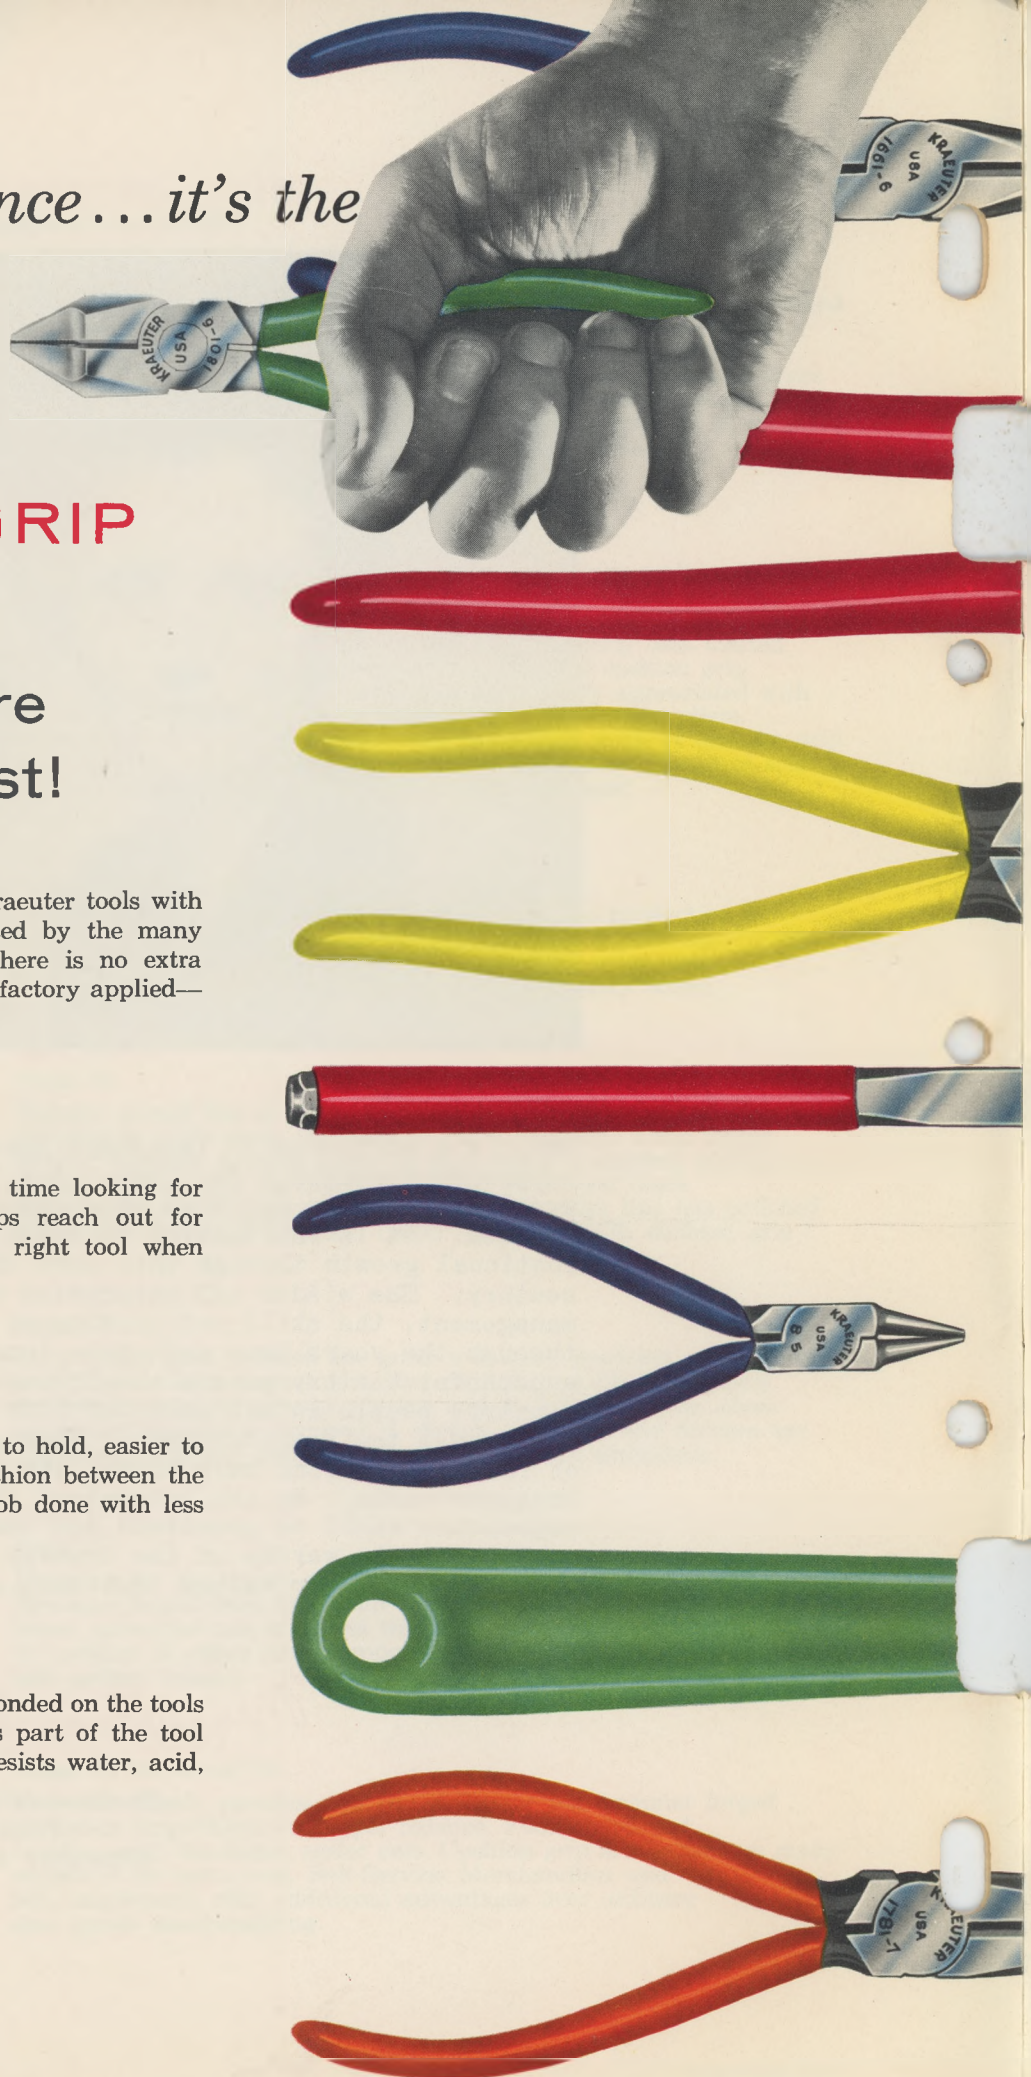

You do not have to spend valuable time looking for tools. Brightly colored cushion grips reach out for attention . . . it's easy to find the right tool when it's needed.

BETTER GRIP

Tools with Cushion Grips are easier to hold, easier to use. They provide a comfortable cushion between the tool and the hand . . . getting the job done with less effort.

BONDED TO STAY ON

Vinyl Cushion Grip is permanently bonded on the tools at the factory . . . actually becomes part of the tool . . . won't crack, chip or peel . . . resists water, acid, greases, oils and chemicals.

CG1830

CG3850

CG4501

CG4502

CG4610

Designed for use in manufacturing, construction, mines, oil fields, railroads, utilities, as well as the radio and electronic fields. Hammer-forged from fine grain tool steel, individually fitted, tempered, adjusted and tested. Selection of the light, serviceable types and sizes will increase production and reduce costs on the assembly line. The heavy duty types and sizes are designed to carry the work load required in general maintenance and rugged service jobs.

CUSHION GRIP "CG" HANDLES

Bright colored VINYL CUSHION GRIPS are factory applied, at NO additional cost. On the production line, cushion grips are resilient, easier on the hand. They are tough, will not crack or peel; they resist water, acid and alkali solutions, greases, oils, and chemicals. To hobby and model craftsmen, and to professional mechanics, they give pliers the "feel" of comfortable and more accurate control.

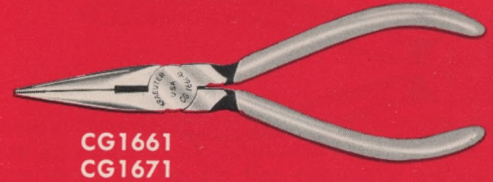

Your inquiries for Special Purpose pliers are welcomed.

Kraeuter solid steel Snips

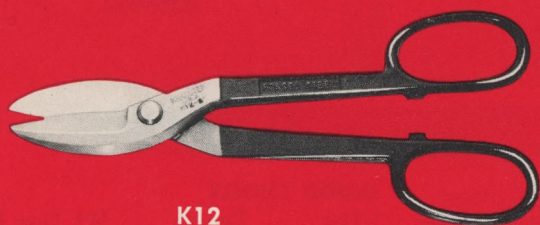

Sturdy, fast cutting snips at popular prices for machine shops, garages, home workshops and on the farm.

Drop forged from solid steel and carefully heat treated. The blades stay sharp and give uniform shearing action over their entire length. The bolt and nut assembly is machine finished and hardened to reduce wear. Designed to cut sheet metal, screen, poultry wire, leather, rubber, heavy cloth and canvas, gaskets, linoleum, plastics, fiberboard, and stove pipes.

Kraeuter Industrial Snips

Designed for the tinner, mechanic and all around user. Drop forged from the finest steel, these snips are accurately ground and finished to provide faster, smoother cuts with less wrist fatigue. The blades are skillfully Flame Hardened and tempered for longer wear. The handles are correctly shaped for comfort in either hand and proportioned for extra leverage with perfect balance. Each pair is tested and inspected assuring the skilled workman of a superior snip that cuts easier and stays sharp longer.

June 1, 1960

To Our Customers: -

Here is your personal copy of KRAEUTER'S 100th ANNIVERSARY CATALOG.

This beautiful new catalog shows the complete line of fast moving CUSHION-GRIP PLIERS & STEEL GOODS which has been so successfully pioneered by Kraeuter.

The quality of any tool is determined by the standards of material and workmanship. And--true appraisal must be based on the degree of service which it renders over the longest period of time.

We are proud to represent Kraeuter & Co., Inc. who for a century have provided the unbeatable combination of unsurpassed quality and rugged dependability which has enabled them to maintain a leadership position in their field.

You will no doubt need more catalogs and to assist the factory in handling, please state your requirements on your next stock order.

Yours very truly,

HIPKISS & HULBERT, INC.
